PROJECTS

- OneBrain AI Platform** 
Engineered an all-in-one AI platform integrating GPT, Claude, Gemini, Grok, and Perplexity with text, image, video, audio, and voice generation. Built AI-powered agents, web search, document analysis, and automation workflows through a unified AI workspace.
- Stamba - CRM platform** 
Developed a CRM and loyalty management platform for STAMBA, featuring dashboards, member management, digital Stamba cards, notifications, and marketing campaign management. Implemented analytics interfaces for tracking customer visits and engagement, with a centralized dashboard for managing business and customer activities.
- Yuva India - Charity platform** 
Developed a responsive NGO website with a centralized admin panel for managing campaigns, events, blogs, donations, volunteers, FAQs, team members, and contact messages. Implemented dynamic content management, multilingual support, and responsive UI for seamless website administration and user engagement
- MZ Global Trade** 
Developed a responsive global trading and e-commerce website featuring product listings, categories, brand-based browsing, promotional offers, product showcases, and quote/contact functionality for wholesale smartphones and mobile accessories.
- Growify Business Consulting Website** 
Developed a responsive business consulting website featuring service management, pricing plans, team profiles, testimonials, FAQs, blog articles, partner sections, and inquiry forms, with a modern UI and user-friendly navigation focused on business growth and customer engagement.
